# THE NEW ERA BEGINS HERE BAGS. BACKPACKS. ORGANIZATIONAL SYSTEMS.

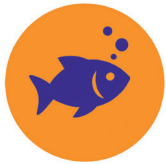

For those who want to ensure sustainability isn't just for show – but makes a real impact.  
For those who don't just follow, but lead.

BEADBAGS isn't just part of the sustainable movement.  
We set the standards.

While others are still talking, we've created functioning systems on the widest front:  
In Cambodia. In Europe.

With recycled harbor straps from Hamburg, with workshops in Cambodia and Germany –  
and with real people whose lives we positively change.

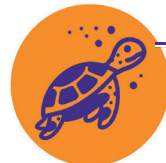

## TWO LINES. ONE PROMISE.

**AQUASACK** – our pioneering line from Cambodia.  
Made from fish feed and cement bags using ultra-durable woven plastic (Woven PP).

Collected before they pollute rivers like the Mekong or large lakes like Tonle Sap – or get burned as waste.

Produced in a WFTO-certified workshop in Cambodia, where over 50% of the staff have disabilities.

**OCEANBOUND** – our global impact line.  
Plastic is collected before it reaches the ocean with production in a SEDEX & BSCI-certified facility in China.

Including retired cargo straps from the Hamburg port – these can no longer be used due to insurance reasons as they may have tiny cracks from holding heavy containers – and must be incinerated as hazardous waste, releasing highly toxic gases.

In close collaboration with Lebenshilfe Germany.

We are an official partner of the UN Decade of Ocean Science.

**“WE TURN THE DISCARDED INTO  
A FUNCTIONING FUTURE.”**

## WHY IS THIS A GAME CHANGER?

The GIZ study 2024 shows: “Fishing and agriculture are the main sources of microplastics in Cambodia and Southeast Asia – especially from improperly disposed bags.”

BEADBAGS is the first company in the world to tackle this issue, making it visible – and developing functional, aesthetic everyday solutions from it.

## WE ARE NOT A GREEN CLAIM – WE ARE THE PROOF.

- Positioning | Leading example of radically credible sustainability
- Depth | Collaboration with Lebenshilfe, open workshops, transparent supply chain
- Innovation | Products made from materials that would otherwise become microplastics or toxic gases
- Impact | Real stories. Real people. No staged campaigns

## OFFICIALLY RECOGNIZED – INTERNATIONALLY CONNECTED

BEADBAGS is an official supporter of the Business Coalition for a Global Plastics Treaty, alongside global brands like Unilever, Mars, or L'Oréal.

Unlike many others: We don't do it for the PR – we do it because it's necessary.

## YOU WANT NOT JUST A GOOD IMAGE, BUT A GOOD IMPACT?

Want to be sure you're standing for true sustainability – honest, powerful, and without greenwashing?

Then cut through the jungle of empty promises. Become part of Beadbags.

**BEADBAGS – LEADING POSITIVE CHANGE FOR  
NATURE, OCEANS, RIVERS, AND LAKES.**

**GARANTIERT!**

**EASY CARRY ACCESSOIRES**

**NACHHALTIGKEIT**  
BOOMT

### **Passion**

**Beadbags** is stylish, warm, and rugged at the same time. Like the rough sea breeze in autumn storms. Always clear, tangible, direct, and honorable, embodying the Hanseatic spirit. Values that millions of people find appealing and valuable, even internationally.

We carry all this into the future with our **Beadbags**. After 10 years of intense search, we have now developed the perfect product that embodies all these values.

### **Connecting worlds**

We ventured to Asia (Cambodia) and found upcycled materials that withstand tropical storms: colorful, exotic, and finely crafted. From these, we make universal and storage bags.

In the Port of Hamburg, we found rope material that secured the heaviest ship loads across all oceans in any weather.

We process and recycle this webbing in Germany into ultra-durable shoulder straps, which we integrate with our universal bags.

Wanderlust combined with a sense of home. Ready for any storm. Resilient and full of strength for all the burdens of daily life.

### **Beadbags: sustainable, truly storm-tested**

We take pride in the fact that our **Beadbags** bags and dust containers are made from 100% recycled materials. And the heart is there too. The basic bags are fully manufactured under strict supervision by the World Fair Trade Organization. No child labor, fair working conditions, fair pay for artisans, humane working conditions, guaranteed and certified.

Beadbags is 100% upcycling. Exotic meets home straight from the Port of Hamburg.

100% sustainable. 100% heart and passion. 100% easy to carry and store. 100% vegan. 100% clear and genuine. 100% storm-tested. 100% Southeast Asia and Europe united.

Upcycling and recycling help conserve resources, and by reusing and repeatedly utilizing materials, we contribute positively to curbing global warming.

Our recycling ensures that no plastic ends up in the oceans or is simply burned, thus sustainably protecting our seas.

100% recycled materials: rice sack material, cement sack material, mosquito nets, and old straps from the Hamburg port.

We avoid using animal-based materials like leather and any substances related to animals.

Produced fairly under the strict rules certified by the World Fair Trade Organization.

100% handmade by artisans in Cambodia, most of whom are physically disabled.

Our materials are recycled and our production is vegan.

Our bags and accessories are high quality, lightweight, and make storing and carrying easy and straightforward every day.

Our accessories and business pursuits are connected at heart, integrating social, ecological, and economic aspects. Verifiable, accountable, and honest.

## YOU ARE THE CHANGE!

We are... the Category Captain in Sustainable Accessories. With years of expertise in sustainability and a wide range of products, we proudly support our partners.

You are... more than just a number to us, more than just another retailer. Together, we are part of the change; you are a trusted partner for your customers and a key player in transforming society.

Together... we're building a successful business! We live in a world where customers now expect fair and sustainable products as the norm. Let's start with ourselves and be the drivers of the upcoming change—together, we can achieve great things.

Become a pioneer in sustainability with us—wholeheartedly. Our heart beats for our retailers, our customers, our employees, our environment... you can count on us. Our products are guaranteed to be fair and sustainable, and certified by the WFTO.

**BE PART OF THE CHANGE WITH US!—BE THE ENGINE YOURSELF! LET'S START NOW! WITH EXPERTISE AND HEART!**

# BEADBAGS OCEAN

**BACKPACKS FOR THE NEW GENERATION**  
**- SUSTAINABLE | TRENDY | SAFE**

## Our Next-Generation Approach: Sustainable Backpacks and Bags

- Prevention is better than cleanup: The research findings from one of the world's most renowned marine biologists, Professor Jambeck, and her team have shown that preventing plastic from entering water bodies is far more effective for aquatic ecosystems and marine life than cleaning it up later.
- That's why we follow the recognized scientific approach and collect plastic within a 50-kilometer radius of coastal regions and use it to produce yarns and fabrics for our backpacks and waist bags. To ensure high durability, we've chosen a composition of 50% Oceanboundplastic and 50% recycled PET bottles for our outer fabrics.
- Prevention through recycling: We rely on recycling as one of the cornerstones of our efforts. By recycling plastic near water, we give it a new purpose and prevent it from becoming waste in our waters.
- Awareness and responsibility: We recognize the importance of awareness regarding this <sup>4</sup> issue. By creating products made from recycled plastic, we establish a visible link between everyday use of plastics and their potential to harm water bodies.
- Collaboration for a sustainable future: To tackle the challenge of plastic pollution in water bodies, we must act together. Beadbags works closely with the UN Ocean Decade and other organizations to raise awareness and develop innovative solutions.

## "CLEAN WATERS, HEALTHY OCEANS: WITH OUR OCEANBOUNDBAGS MADE FROM RECYCLED PLASTIC, WE REDUCE THE RISK OF WATER POLLUTION AT THE SOURCE."

BeadBags For over a decade, we've been dedicated as one of the leading companies in genuine Mission Sustainability, passionately working for real change. Our mission started with upcycling plastic in Cambodia under the umbrella of the World Fair Trade Organization. There, we prevent plastic from entering lakes and rivers—hence we use the terms Lake- and Riverbound-Plastic. Today, we are proud to continuously evolve and expand our activities.

In summer 2023, we're writing the next chapter of our success story and taking our product range to the next level. We are thrilled to introduce our latest products, which include items made from recycled Oceanbound-Plastic. By giving this plastic a new purpose, we actively contribute to combating ocean pollution and conserving valuable resources.

Our commitment goes beyond merely producing sustainable products. We are extremely proud to be an official partner of the UN Ocean Decade 2021-2030 since 2022.

Our years of experience and expertise allow us to create high-quality products that are not only visually appealing but also support your personal sustainability journey. Each of our products tells a story and embodies our belief that style, responsibility, and quality can coexist.

As a company, we are committed to revolutionizing consumption and shaping a sustainable future for generations to come. For the first time, we are taking a holistic approach to plastic prevention in water bodies: We stand for the avoidance of River-, Lake-, and Oceanbound-Plastic. We believe sustainability is more than just a trend—it's a commitment we pursue every day.

It's particularly important to us that our products are not only sustainable but also stylish and offer real value to you. We are delighted that the customers of our new range are so pleased with the lightness of the backpacks and waist bags and are enthusiastic about the extensive and innovative storage options in the backpacks.

Join our movement and explore our expanded range made from recycled Oceanbound-Plastic. Every product you purchase from us helps protect the environment and preserve the oceans.

Together we can create a sustainable future let's take the first step today!

# PACIFIC

Our Beadbags Ocean line represents more than just handy accessories—it's a stride towards plastic-free oceans. Thanks to you, we remain committed to our ocean philosophy, actively contributing to better water quality. Did you know that 50% of your backpack's top is made from recycled ocean-bound plastic waste? This waste is collected within 50 km of coastal waters and transformed into high-quality materials.

We're proud to be an official network partner of the UN Ocean Decade 2021-2030 since 2022. None of this would be possible without you and your support.

In 2025, we will also support the BUSINESS COALITION FOR A GLOBAL PLASTIC TREATY.

Thank you for joining us on this heartfelt mission. Together, we're creating change—step by step, adventure by adventure.

# BEADBAGS SPACY, THE EVERYDAY HERO WITH STYLE

## MULTIFUNCTIONAL & WELL-THOUGHT-OUT:

BEADBAGS SPACY is a true organizing genius. Whether for laundry, toys, magazines, returnable bottles, firewood, or groceries – the possibilities are nearly endless. With over 60 liters of space (XXL bag), it helps you quickly organize, store, and transport items – even up narrow stairs thanks to its sturdy handles.

## STURDY, LIGHTWEIGHT & SPACE-SAVING:

Made from recycled feed bags (PP), this bag is extremely durable, double-stitched, water-repellent, and weighs only about 400 g. Thanks to the four knobs on the bottom, it stands firmly and can be folded compactly when needed. Inside, there's a handy zippered pocket for small items.

Orange patch with white screen print. See page 40 for design selection, all designs available in both bag sizes.

SPACY XXL

## SUSTAINABLE & FAIR:

Every BEDBAGS SPACY is crafted with care under the fair conditions of the World Fair Trade Organization, often by individuals with physical disabilities. The materials are sourced from areas near rivers and lakes, actively helping to keep plastic waste out of the environment.

## DESIGN MEETS FUNCTION:

With high-quality screen printing and a nautical charm, Spacy is not just functional but a real eye-catcher in any space. It adds color, joy, and lightness to your daily life – every single day.

## APPLICATIONS:

BEADBAGS SPACY fits into life. With its versatility and flexibility, it truly is a jack of all trades.
